

## 521 PROJECT UPDATE APRIL 10, 2018

The Steering Committee and Building Committee Met on April 10 in the St Jude Campus Library

We reviewed and updated 521 Site Plans and Church Schematic Drawings

We plan to interview and hire an architect to review and update these plans and then develop Color Drawings

Once we do this, we plan to present these Color Drawings at a Town Hall meeting, and then will have them on display in the back of our churches

Once we have a Town Hall meeting, we will present our plans to the Diocese BRAC for approval to move on to our next phase for the 521 Project Design Development

We plan to develop a Fundraising strategy soon and coordinate this with the Charleston Diocese Bicentennial Capital Campaign

We are considering a Public Relations person to help assist with our building project

We plan to present the details of our meeting to the Parish Council on April 24, 2018 for further input.

Your input is always welcome at any time during this project
