

521 PROJECT UPDATE MAY 2, 2018

The Parish Council was updated on our 521 Building Plans on April 24, 2018

We reviewed and updated 521 Site Plans and Church Schematic Drawings

We plan to interview Montgomery Architects on May 8, 2018 at 6pm. Once we hire an architect, we can develop Color Drawings

Once we do this, we plan to present these Color Drawings at a Town Hall meeting, and then will have them on display in the back of our churches

Once we have a Town Hall meeting, we will present our plans to the Diocese BRAC for approval to move on to our next phase for the 521 Project, Design Development

We have an introductory meeting with Vann Mitchell, Charleston Diocese Fundraising, on May 10th at 2pm.

We are developing a document "Utilization of Assets during 521 Building Project". This document will outline our strategy for unused portions of our 521 Property, and for use of St Anne Church and Campus and St Jude Church and Campus during the building process.

Updates for our 521 Building Project are in the Bulletin and are posted on myparish app under "messages"

A sign is being made "Future Home of St Anne and St Jude Roman Catholic Church" and will be placed on our 521 property.

Your prayers are always needed and your input is welcome at any time
