

## 521 PROJECT UPDATE JUNE 21, 2018

1. We are in the process of finalizing a contract between our architect, Mr Montgomery, and the Diocese. Mr Montgomery is submitting an “Architect's Proposal” to the Diocese as part of the contract process. This contract is specifically to update our site plans and schematic drawings and develop color drawings.
2. Once we have a contract, we can meet with Mr Montgomery to update our site plans and schematic drawings.
3. We will then present this updated information to our parishioners at a town hall meeting to get further input.
4. We will then present our updated plans to the BRAC to get approval to enter Fundraising.
5. We plan to do a combined fundraising with the Diocese Bicentennial Campaign. This will be some time next year.
6. Once we have adequate pledges and fundraising, we can enter Design Development, which will take a year.
7. The above information was discussed at our last Parish Council Meeting on June 20 2018
8. Keep praying
