

521 PROCECT UPDATE August 14 2018

1. The Steering Committee and Building Design Committee met with Rob Montgomery, our architect, on 14 August.
2. We updated our 521 Project Directives, Suggestions, and Variables (From review of past meeting minutes)
3. Mr Montgomery reviewed the history of this project from his involvement from 2007 to 2011.
4. Multiple questions were asked and answered. Father Gio had multiple suggestions.
5. Mr Montgomery will take this information to update site plans and schematic drawings. These initial plans will probably be completed between Thanksgiving and Christmas.
6. Once we have the updated plans and drawings, we plan to review them with Mr Montgomery and then present this information at a Town Hall meeting
7. Once we have parishioner input, we plan to present our plans to the Charleston BRAC for approval to move to the Design Development Phase of our Building Project.
8. We plan to combine the second phase of our church building fundraising with the Diocese Bicentennial Campaign sometime next year.

Keep praying.
